REPORT OF TRUSTEES.

GEORGIA LUNATIC ASYLUM, }
October 18th, 1888. }

To His Excellency, JOHN B. GORDON,

Governor of Georgia.

SIR:--In compliance to law, the Board of Trustees submit this, their annual report of the operations of the Institution, for the year beginning Oct. 1st, 1887 and running to October 1st, 1888.

They ask that the reports of Superintendent, Steward, Assistant Steward, and other officers, which you will find hereto attached, be considered as a part of their report; a reference to which reports with their classified and tabular statements will give you full information of all expenditures and as to how this important trust has been executed.

The expenses have somewhat increased but only because of the increase of patients, and by reference to tabular statements above alluded to, you will observe that this year's cost per capita will compare favorably with former years. An ample supply of water has been for years the most important desideratum connected with the Institution. Even when the present system of water works was first projected, for fear that the Furman Springs, the contemplated source of supply, would be insufficient, the pump was then located on the banks of Camp creek, so that in case of necessity its waters might also be utilized. With the rapid growth of the Institution, the need for more water has increased to such an

extent until both these sources are now hardly sufficient to supply the demand; especially in the summer months the supply of water is truly precarious, the pump at the creek delivering its whole flow up at the Asylum. Capt. DeSaussure; the engineer, estimates that during the four years he has been with the Institution, that the bed of the creek has been raised by the filling in of sand, one foot a year, so that now if a protracted drought should occur, for want of a sufficient supply of water the Institution would be in a pitiable condition indeed. The last Legislature wisely appropriated \$3,000 to commence an Artesian well. The Trustees after advertising for bids in various sections of the Union, finally entered into a contract with the Messrs. Joseph Snakard & Co., of Bradford, Pennsylvania, that they should commence a well 12 inches in diameter for the first two hundred feet, and 8 inches in diameter after that depth had been obtained. They are under contract to bore 1500 feet, but the Trustees can stop at any point after 500 feet has been reached. If they should go the 1500 feet, the well would cost only \$7,500. They are now at the present writing 850 feet deep with water in fifty feet from the top. It may be that a flowing well will not be obtained, but if a deep well like the one in Atlanta, with a sufficient supply is secured, that will serve every purpose, as a pump will be necessary in any event to raise the water into the tower. The supply has not yet been tested, but it is hoped and believed that the water problem is on the verge of a satisfactory solution. We recommend that the Legislature appropriate \$7,500 to complete the work on the well.

Mr. Forsyth Johnson, a professional landscape gardener, was employed to draw a map and plan for grading the grounds in front, and between the two Convalescent buildings. Capt. DeSaussure with a limited force has been executing the work according to said plan. He has

progressed very satisfactorily with the small force at his command; but much remains yet to be accomplished. What has been done will be seen by a glance at Capt. DeSaussure's report, which accompanies this.

A company of gentlemen has organized a railroad, running between Milledgeville and the Asylum, and in a few days at farthest trains will be running through, connecting the Institution with the depots of the Georgia and Central Railroads in Milledgeville. This, it is believed, will be a great benefit to the Asylum, as all coal and other supplies can be laid down at its doors. All bids for supplies can now be made deliverable at the Asylum, instead of the depots at Milledgeville, as heretofore; thus a large amount of hauling can be dispensed with. In view of these benefits, the Trustees allowed the directors of said road the privilege of laying their track and running their trains through the lands belonging to the Asylum. Of course this was to be subject to approval by the Legislature, which will doubtless be obtained. Instead of storing supplies in the cellars of the main building as they now are, we recommend that a cheap store house be erected in the yards of the Asylum, and at the terminus of said Railroad, where supplies can be unloaded without any hauling.

By reference to Steward's report you will observe the amount now in the Treasury of the Asylum, as well as the balance to the credit of the Institution in the State Treasury.

It is estimated that it will take \$180,000 per annum for the years 1889 and 1890. In addition to that we recommend that \$10,000 per annum be appropriated for extraordinary repairs, and that eight thousand dollars be appropriated to finish the grading and improvement of the ground in front yard.

This being the close of the Fiscal year, and the regular time for holding the election of officers for the coming two years, it was then entered into by the board.

Mr. L. J. Lamar, the faithful and efficient Steward, having resigned the office of Steward, was elected Treasurer of the Asylum, Mr. Windsor, the former Treasurer, declining an election. Mr. R. C. Humber was elected to fill the vacancy in the Steward's office. Rev. T. H. Gibson was elected Chaplain. All other officers of the Institution were re-elected. The Board take pleasure in expressing their satisfaction at the conduct and management of the Institution for the fiscal year just expired.

Respectfully submitted,

T. F. NEWELL, President,

W. H. HALL, M. D. Vice President,

T. H. LATIMER,

J. D. ERWIN, M. D.,

T. S. HOPKINS, M. D.

SUPERINTENDENT'S REPORT.

STATE LUNATIC ASYLUM,
NEAR MILLEDGEVILLE, GA.,
October 1st, 1888. }

To the Honorable Board of Trustees

Georgia Lunatic Asylum:

GENTLEMEN:—In conformity with the law, and rules of the Institution, I submit for your consideration, the following report, with tabular statements, together with the reports of the Steward, Treasurer, and other officers; giving a detailed account of its operations, movement and number of patients treated in the Asylum, from Oct. 1st, 1887, to Oct. 1st, 1888.

On the 1st of October, 1887, there were white patients on hand 910, and colored 385, making a total of 1,295. There have been received since, or during the past year, whites 319, and colored 132, making a total reception of 451. There have been discharged, removed, eloped, and died, during the year 360, leaving on hand 1st Oct. 1888, 1,386.

The average number under treatment during the year, was 1,340, while the whole number receiving treatment was 1,746. It will be seen that the average number under treatment this year was 74 more than last year, and of the whole number treated during the year, there were 90 more than any previous year.

The following tables will give the movement of both the white and colored in detail. And it will be seen from these tables, of the 319 whites received during the year, 62 of them were cases of dipsomania. I still think that this class could be best cared for in a special institution.

Statement in relation to the Number of White Patients, during the past Twelve Months, or from the 1st of October, 1887, to the 1st of October, 1888.

There remained on hand, 1st October, 1887,.....	910
White Male Lunatics	337
White Male Epileptics.....	54
White Male Idiots.....	15—406
White Female Lunatics.....	448
White Female Epileptics.....	36

Leaving whites on hand 1st of Oct, 1888,.

980

CLASSIFICATION OF THE WHITES.

White Male Lunatics,.....	391
White Male Epileptics,.....	55
White Male Idiots,.....	16—462
White Female Lunatics,.....	452
White Female Epileptics,.....	46
White Female Idiots,.....	20—518—980

Of the deaths there occurred from exhausted mania twenty (20); epilepsy, sixteen (16); apoplexy, five (5); consumption, four (4); chronic diarrhoea, three (3); heart disease, three (3); paralysis, six (6); marasmus, two (2); dropsy, two (2); cramp colic, (1); congestion of the liver, one (1); dropsy of the heart, one (1); congestion of the brain, one (1); congestion of the lungs, one (1); dysentery, one (1); old age, one (1).

Statement in relation to the Number of Colored Patients, during the past Twelve Months, or from the 1st of October, 1887, to the 1st of October, 1888.

There remained on hand 1st of Oct. 1887,.....	385	
Colored Male Lunatics,.....	143	
Colored Male Epileptics,.....	31	
Colored Male Idiots,.....	5—179	
Colored Female Lunatics,.....	192	
Colored Female Epileptics,.....	12	
Colored Female Idiots,.....	2—206—385	
There have been received during the year:		
Colored Males.....	75	
Colored Females.....	57	132
Total number under treatment.....		517
Of whom there have been discharged re-		
stored.....	42	
Removed improved.....	2	
Removed unimproved.....	2	
Eloped.....	5—51	
There have died.....	60	111
Leaving of the colored on hand 1st Oct.		
1888,.....		406

CLASSIFICATION OF THE COLORED.

Colored Male Lunatics.....	149
Colored Male Epileptics.....	33
Colored Male Idiots,.....	10—192
Colored Female Lunatics.....	202
Colored Female Epileptics.....	10
Colored Female Idiots.....	2—214—406

Of the deaths there occurred from exhausted mania, six (6); epilepsy, nine (9); consumption, five (5); diarrhoea, five (5); softening of the brain, four (4); convulsions, two (2); heart disease, four (4); paralysis, two (2); nervous exhaustion, three (3); dysentery, two (2); dropsy, two (2); chronic diarrhoea, two (2); marasmus, one (1); inflammation of the bowels, one (1); apoplexy, one (1); cancer of the womb, one (1); physical exhaustion, one (1); tertiary syphilis, one (1); dropsy, one (1); peritonitis, one (1); nervous fever, one (1); abdominal tumor, one (1); cerebral tumor, one (1); congestion of the lungs, one (1); general debility, one (1); paresis, one (1).

HEALTH.

The health of the institution has been very good. It will be seen by referring to the causes of death, that the sickness was not due to any local cause, which indicates the good sanitary condition of the Institution. There has been under treatment during the year, 1,746 patients, and many of them were broken down, mentally and physically. We have enjoyed entire exemption from all epidemics or contagious diseases, and we have had no serious accidents of any kind, while we have had quite a number with homicidal and suicidal tendencies, and some that required constant observation, both day and night. We feel truly grateful that there has not been any suicide. This class of patients always gives much mental anxiety.

RECOVERIES.

It will be seen that the per cent. of recoveries based upon the recent and curable cases received during the year, is very good. As the question is sometimes asked as to what per cent. of recoveries we have during the year, referring to the entire population, losing sight of the fact, that chronic insanity is regarded as incurable, and the longer the duration of the disease, the more hopeless the case is, hence the per cent. of recoveries is based upon the patients received during the year. Those that are admitted soon after the first symptoms of the malady, a large per cent recover, and perhaps many of the remainder are very much improved. This certainly ought to impress the importance of early hospital treatment. There are quite a number become insane every year, if dangerous and violent at the outset, they are sent to the institution in the acute and curable stage, others that are quiet and harmless, are perhaps kept at home, until the disease has become chronic and incurable, and then sent to the institution, to remain during life, unless removed by relatives or friends, which is seldom done. We would not be justified in expecting recovery from only the acute cases, therefore, it is reasonable to suppose, that at least one-half or more of the cases received each year adds to the list of chronic insanity, and the larger number of the insane belong to the chronic class, in whom recovery is almost hopeless.

AMUSEMENTS AND OCCUPATION.

We have had a variety of amusements weekly, during the year. Our well filled library adds much to the pleasure and diversion of many of our afflicted charge. There are about seventy-five per cent. of those whose condition would justify it, employed in some way, either in the gardens, yards, kitchen and laundry, or in the wards and dining rooms. All the sewing and repairing of the clothing for the institution is done in the wards.

WHITE INSANE.

While we have a few vacant rooms in this department, I very much fear that we will be over-crowded in less than twelve or eighteen months.

COLORED INSANE.

The department for the colored insane has been filled several times during the year, to its utmost capacity, and I apprehend that we will soon be over-crowded and be under the necessity of putting two patients in a room, which is to be regretted.

REPAIRS AND IMPROVEMENTS.

Much has been done in the past year in the way of repairs and improvements, and much more remains to be done. I would suggest that your honorable body ask for a special appropriation for extraordinary repairs and improvements, of not less than ten thousand dollars for each year, 1889 and 1890. In my judgment nothing less than this amount will be sufficient to keep the buildings, machinery, etc., in proper repair, and if this amount is not appropriated, important repairs will be neglected. It should be remembered that it is a mammoth institution, and as it grows older, the impress of time is leaving its mark upon every part of it, and unless it is repaired promptly when needed, it will ultimately require large out-lays of money for repairing and putting the buildings in proper condition.

FINANCES.

By reference to the report of the Steward, it will be seen that the finances of the Institution continues to be managed with strict economy, the per capita per diem, being 34 83-100 cents. There are but few Institutions in the United States that are managed with more economy, receiving the same class of patients that we do. His report also gives a detail statement of expenditure for supplies, &c., &c.

ACKNOWLEDGEMENTS.

I desire to express my warmest thanks to the following editors who have contributed copies of their journals which enabled many of our patients to hear the news from home, which privilege they fully appreciate. These papers with magazines, and our Library with over 5000 volumes, furnish abundant reading matter to a great many patients. Magazines, papers, and books, afford much enjoyment, and a real benefit, and I voice the profound gratitude of many patients in expressing warm thanks for all these favors.

If the donors could step into the Library and witness the happiness they have brought to many of the patients in this hospital, I am satisfied that they would continue to send papers and books.

Should any papers or books sent have, by accident, been omitted from this list, the proprietors or donors will confer a favor by notifying the Superintendent.

RELIGIOUS SERVICES.

Religious services have been conducted regularly Sunday and Thursday evenings, by the Rev. Donald McQueen, Chaplain, save on a few occasions when not advisable. He has also visited the sick when advisable, and buried the dead.

CONCLUSION.

It gives me great pleasure to say that the Supervisors, Attendants and Employees generally have discharged their duties efficiently and faithfully. I must express my thanks to the medical staff, all the other officers and the Engineer for the faithful and efficient manner in which they have discharged the many trying duties of their several positions.

I would not be true to my convictions of duty were I not to express my sincere thanks to Mr. L. J. Lamar, our efficient Steward for the commendable zeal and fidelity which has always characterized his management of the finances of this Institution, and the lively, active interest he has ever taken in everything touching it, and the hearty, intelligent co-operation given me in adding to the comfort and welfare of my unfortunate charge. He guarded well his sacred trust; with him, he only wanted to know his duty to the Institution and the unfortunates, and he discharged it promptly regardless of circumstances or surroundings. God bless and sustain him in all of the trials of life.

And to you, gentlemen of the Board, I express my gratitude for the valuable assistance and cordial support in the management of the Institution. Trusting in a wise and merciful Providence, we again commence the duties of another year. Respectfully submitted,

T. O. POWELL, Supt., &c.

APPENDIX.

QUESTIONS TO BE ANSWERED BY PARTIES ACCOMPANYING PATIENTS TO THE ASYLUM.

1. Name?
2. Age?
3. Nativity?
4. Religion?
5. Occupation?
6. Married or single? (If female, state whether she has ever borne children, their number, and the date of last birth.)
7. Natural disposition? Has the patient exhibited any eccentricity of mind, disposition, or temper before the present attack.
8. When did the first symptoms of insanity appear, and how were they manifested?
9. Number, duration, and character of previous attacks, if any? Was the patient ever suicidal, and in what manner, or had a homicidal propensity or a disposition to be violent, destructive, or filthy?
10. Is there any physical disease or derangement?
11. Have any of the patient's relations been insane, if so, who of them?
12. What is the cause of this, or previous attacks?
13. Is the patient addicted to the use of tobacco or spirituous liquors, or opium? If so, to what extent?
14. Has the patient ever received an injury of the head?
15. Does the patient sleep and eat satisfactorily?
16. Is the patient disposed to do mischief with fire?
17. What treatment, or confinement has been employed?
18. Give the name of the person, or parties, to be addressed in his or her case?

CLOTHING.

Each patient should be provided with at least two full suits of clothing.

Knives and jewelry should be left at home.

REPORT OF STEWARD.

STATE LUNATIC ASYLUM,
NEAR MILLEDGEVILLE, GA.,
October 1st, 1888. }

DR. T. O. POWELL, Sup't, &c.:

SIR:—I have again the honor to transmit through you, to our Board of Trustees, this my report as Steward covering the period from October, 1st, 1887, to October, 1st, 1888.

Exhibit "A" shows the amount brought forward from last fiscal year, the amount drawn by requisitions, by your approval, as well as that of the Board of Trustees, for the support and maintenance of the Asylum; together with a classified statement of disbursements, also the balance on hand to be carried forward to October 1st, 1888.

Exhibit "B" shows in detail the expenditures on account of subsistence.

Exhibit "C" shows in detail the expenditures on account of Clothing.

Exhibit "D" shows in detail the expenditures on account of Fuel and Transportation.

Exhibit "E" shows in detail the expenditures on account of Ordinary Repairs.

Exhibit "F" shows total amount of Officers Pay Roll.

Exhibit "G" shows total of amount of Wages Pay Roll.

Exhibit "H" shows in detail the expenditures on account of Medical Supplies.

Exhibit "I" shows in detail the expenditures on account of Stationery and Postage.

Exhibit "J" shows in detail the expenditures on account of Contingencies.

Exhibit "K" shows in detail the expenditures on account of Extraordinary Repairs.

Exhibit "L" shows in detail the expenditures on account of Artesian Well.

Exhibit "M" shows the requisitions drawn from the State Treasury for support and maintenance of the Institution, in their regular order. By this Exhibit you will readily see that we have undrawn in State Treasury the

month of September \$14,583.33, together with the balance of \$6,427.28, in hands of Asylum Treasurer, aggregating \$21,010.61. We have a total in State Treasury of the \$175,000.00 appropriated the months of September, October, November and December, aggregating \$58,333.-33.

Exhibit "N" shows the average number of patients in the Institution from 1873 to 1888 both included, together with the per capita cost, both per diem and per annum.

Exhibit "O" shows the cost of keeping one patient for one year, one month, one week and one day.

Exhibit "P" shows statement of stock, cattle, wagons, etc., on hand October 1st, 1888.

Exhibit "Q" shows all packages received for male patients, date of reception, to whom delivered from October 1st, 1887, to October 1st, 1888.

Exhibit "R" shows all packages received for female patients, date of reception, to whom delivered, from October 1st, 1887, to October 1st, 1888.

The question of water supply continues to be quite a serious one, but it is my pleasure to state that since my last report, work was commenced, and at this writing is progressing as well as could be expected on our artesian well. It has not advanced far enough, however, to be able to say whether we will succeed in getting a sufficient supply. I have, as last year, to report that there has been a large amount of fencing and other work done, which will appear under its proper head. The work also on grading the grounds after a map and plan made by Mr. J. Forsyth Johnson, a professional landscape gardener, is getting on quite well, considering the force we have had at work. The expenses of the Institution have increased, but owing only to the fact of the continued increase of patients. Our capita will however compare favorably with preceding years. I would suggest that a separate and distinct appropriation be made, for extraordinary repairs or new improvements, completing the grading of grounds in front, and also the finishing of the Artesian Well.

The cost of supporting and maintaining the Institution for the years 1889 and 1890, I believe can be done, if the heretofore rigid economy, consistent with the same

comforts, is adhered to, for \$180,000.00 per annum. I will state that \$10,000 per annum, or so much as may be required, be appropriated for 1889 and 1890, for extraordinary repairs. That \$10,000 be appropriated to complete the ground in front, and \$7,500.00 be appropriated to complete the Artesian Well.

Our Store-Keeper reports stock on hand and paid for \$2,720.76.

Our Apothecary reports stock on hand and paid for \$1,306.90.

In closing this report I am gratified to state that I have enjoyed the full confidence and esteem of our Board of Trustees, and yourself as Superintendent, and I have brought to bear every faculty with which I am possessed, to guard well the interest of the entire people, and the comfort and welfare of the inmates of our noble Institution.

I am Very Respectfully,

LUCIUS J. LAMAR, Steward.

THE HISTORY OF THE
CITY OF BOSTON
FROM THE FIRST SETTLEMENT
TO THE PRESENT TIME
IN TWO VOLUMES
BY NATHANIEL BENTLEY
VOL. II.
BOSTON: PUBLISHED BY
J. B. BENTLEY, 1825.

IMPROVEMENTS

From October 1st, 1887, to October 1st, 1888.

1 grindstone, 42x5 inches, with iron stands and trough.
36 self closing bibbs and stops in water closets on female wards.

1 double sliding door in Amusement Hall, Male Convalescent Building,

1 one hundred and thirty-six Horse power Babcox and Wilcox steam boiler.

1 brick smoke chimney 82½ ft high, for above boiler.

Painted tin roofs of male and female Convalescent buildings.

Painted tin roofs of Machine shop and Laundry,

Painted tin roofs of Boiler house at Main Building.

Painted tin roofs of Negro Building.

Painted tin roofs of Main Center Building and its wings.

Painted tin roofs of Female detached Building.

Painted tin Gas holder,

Put in a bench of 3's at Gas works.

1 all brass Washing machine in Laundry.

Built a wooden porch 25x10 ft at Negro building,

3 new Water Closets in Recreation room at Negro Building.

1 steam gong fire signal.

Built a wooden shelter in yard of detached Male Building.

The work of grading the park in front of the Institution has been begun. Forty-eight thousand (48,000) cubic yards of earth have been moved and placed in position. This has been moved an average distance of four hundred feet. The terrace around the Male Convalescent building is about completed, two flights of granite steps, one of eleven, the other of twenty-eight steps, up, and the sod laid. Twenty-one hundred square yards of sod was used on these banks. Seven hundred feet of 12, 18 & 24 inch sewer pipe have been used under this grade.

A new brick dam has been built across the "Spring Branch" replacing one which was washed away by the

heavy rains during the early part of September, 1888. Thirteen thousand brick were used in this dam; which is very substantial, the brick being laid in hydraulic cement, and the foundations dug down to rock.

Some work has been done on the log, brush, and rock dam across Camp creek at the water works. Much trouble has been caused by the filling in of this creek bed with sand. I have estimated that the average raising of it has been at the rate of one foot a year for the past four years. It was not so rapid previous to that. This is caused in part by the breaking of a mill dam, situated some four hundred yards above the water works; and partly in consequence of the increased amount of clearing of lands being done above us.

Each heavy rain brings down large quantities of sand, which is deposited in heavy banks above the "trunk" which conveys water to the suction well. On one occasion recently (Sept. 1888) this bank of sand was two feet thick above the trunk, and we were without any water for ten hours. A day's work with a force of hands enabled us to get a limited quantity, which was increased to the full capacity of the pump by a second day's work.

During the summer months our supply of water is very precarious, and not of good quality, as during the very dry spells the Camp creek affords only sufficient water to supply our needs—our pump delivering the whole flow of the creek up at the Asylum. Had the season been just a little dryer we would have suffered for the want of water.

A contract has been made for an Artesian Well, and the work begun on the grounds.

The drilling progresses very slowly, owing to the hardness of the rock through which the bore is made. A depth of eight hundred and eighty feet has been reached. About four feet of hole is made daily, at this depth; the diameter of the bore being eight inches.

Besides keeping up the ordinary repairs of the Institution, the following new work has been done by the carpenters:

Ceiling one small house.	3 lattice gates.
Top to gate of Apoth'y shop.	2 lattice benches.
New sills & steps to hot house.	12 plain benches.
8 sash.	2 safes.
23 wire guards for windows.	2 sets of steps.
1,142 head and foot boards.	6 rooms ceiled.
2 ladders.	3 door frames.
1 closet in house of 3d Asst. Physician.	2 sets of flower steps.
26 tables.	28 brackets.
10 gates.	2 lap boards.
5 hog troughs.	5 set shelves for clothes room
1 cart body.	12 clothes racks.
98 shuck mops.	30 flower boxes.
24 panels woven wire fencing.	1 water table.
2,500 panels running fence.	239 bedsteads.
2 medicine cases.	1 drawing board & trestles.
23 bread trays.	1 piazza to small house.
1 step ladder.	4 window curtain rods and rings.
8 sets shelving for Library.	1 water trough for horse lot.
8 doors battened.	1 cart body.
16 lattice doors.	New floor in 6th male ward.
New floor in vestibule of Third male ward.	
Divided 2nd male ward with lattice partition and doors.	
And many other minor improvements and repairs too numerous to mention.	

General Appropriation for Year Ending October 1st, 1888.

INVENTORY OF MACHINES AND TOOLS.

OCTOBER 1st, 1888.

—o—

STEAM ENGINES AND STEAM PUMPS.

- 1 Vertical Engine, 11x18.
- 1 Horizontal Engine, 10 $\frac{1}{2}$ x20.
- 1 Duplex Worthington Fire Pump, 12x7x10.
- 1 Duplex Worthington Waterworks Pump, 14x7x10.
- 1 Cameron Waterworks Pump, 14x7x24.
- 3 Worthington Boiler Feeders, (old) 6x4x9.
- 1 Knowles Boiler Feeder, 6x4.
- 1 Cameron Boiler Feeder, 6x3.
- 1 Knowles Duplex Boiler Feeder, 6x4x7.
- 1 Knowles Automatic Feed Pump and Receiver, 4x2 $\frac{3}{4}$.

BOILERS.

- 2 Fire Box Tubular, 40 H. P. each.
- 2 Lowe's Patent Tubular, 40 H. P. each.
- 3 Return Tubular, 40 H. P. each.
- 1 Babcock & Wilcox Patent Water tube, 136 H. P.
- 2 Return Tubular, 30 H. P. each.
- 1 Return Tubular, 25 H. P.
- 1 Vertical Tubular, 30 H. P.
- 1 Cylindrical, 7 H. P.
- 2 Return Tubular, 50 H. P. each.
- 2 Return Tubular, 75 H. P. each.

17 Boilers having a total of 788 H. P.

IRON AND WOOD WORKING TOOLS.

- 1 Screw Cutting Engine Lathe Swing, 24 inches.
- 1 Screw Cutting Engine Lathe Swing, 9 inches.
- Each Lathe having gears, rests, chucks, and tools.
- 4 Pair Pipe Stocks, cutting pipe from $\frac{1}{2}$ in to 4 inches.
- 1 Power Pipe Threading Machine, with dies and taps, $\frac{3}{8}$ in. to 2 in.
- 3 cut off tools.
- 8 monkey wrenches.
- 4 twist drills.
- 7 bolt drivers
- 9 lathe dogs
- 8 oil cans
- 1 oil stone
- 3 hand screw plates
- 1 hand vise
- 2 bench vises
- 2 pair plyers
- 35 lbs chipping chisels and caulking tools.
- 1 gas fitters vise
- 1 gas fitters torch
- 1 gas fitters blow pipe
- 1 pair gas burner plyers
- 9 Fallowing taps, $\frac{5}{8}$ in to $\frac{3}{4}$ in.
- 12 pair pipe tongs
- 8 pair Brown's adjustable pipe tongs
- 1 Stilson pipe wrench
- 4 chain tongs
- 2 jack screws
- 1 grind stone 40x5 in.
- 5 tap wrenches
- 2 soldering irons
- 1 ratchet brace
- 5 tool closets
- 3 tool racks

BLACKSMITH SHOP.

- 1 anvil.
- 1 bellows
- 1 bellows (old)
- 1 swage block 225 lbs.
- 1 flattening plate
- 45 lbs tongs
- 60 lbs assorted tools
- 1 sledge
- 1 hand hammer
- 1 box of horse shoeing tools

CARPENTER'S TOOLS.

22 firmer chisels	5 boring machine augers
8 framing chisels	3 hollow augers
2 paring chisels	3 drawing knives
3 paring gauges	1 saw set
33 auger bitts	2 try squares
6 iron stock planes	3 iron clamps
5 wood stock planes	1 pair dividers
1 1½ in match plane	2 door clamps
2 ¾ in match planes	1 hand mitre machine
6 hand saws	1 spike maul
13 twist drills	1 iron bound tool chest
2 counter sinks	4 bench vises
1 brace screw driver	3 hand hammers
1 hand screw driver	2 bead planes
2 bitt braces	1 universal "T" square
2 oil stones	1 tennon saw
1 extension bitt	1 axe
2 hand axes	1 broad axe
1 hatchet	1 wood rasp
2 framing squares	1 scratch gauge
1 bevel	1 foot adz
6 augers	1 50 foot tape
1 boring machine	1 level, (hand)

WOOD WORKING MACHINES.

1 pony planing machine	2 C. I. wrenches
3 sets of bitts for same	1 tennoning machine
1 cutter head	2 cutterheads
1 cast iron wrench	1 cope cutter head
1 pony matching machine	8 bitts for same
4 cutter heads for same	1 emery saw gummer
18 bitts	4 emery wheels
2 cast iron wrenches	1 universal saw table
1 foot mortising machine	8 circular saws
6 bitts for same	1 scroll saw table
1 C. I. wrench	1 C. I. wrench for same
1 sticking machine	1 pickel heading machine
3 cutter heads	8 turning chisels
30 pair bitts	

GAS WORKS.

1 iron coal barrow.	1 set of patching tools.
1 S. H. coal scoop.	1 monkey wrench
1 trowel.	1 chain fall
1 coal screen.	

BOILER ROOMS.

10 L. H. shovels.	7 steel wheel-barrows.
4 coal screens.	3 axes.
4 wheel-barrows.	3 watch clocks
5 S. H. coal scoops	1 eight-day clock

FIRE DEPARTMENT.

1 hose-reel.	4 extension ladders.
500 ft rubber hose.	30 rubber buckets.

LAUNDRY.

3 all brass washing machines.	1 steam starch boiler.
1 steam mangle.	1 rotary clothes drying machine.
1 centrifugal wringer.	2 100 gal. clothes boilers.

APPARATUS IN FOUR KITCHENS.

16 steam jacketed iron kettles.	3 brick ovens.
6 steam jacketed copper coffee kettles.	3 sinks in scullery.
3 steam jacketed copper tea kettles.	5 sinks in kitchens.
4 copper steamers.	2 sinks in vegetable washing rooms.
4 double-bottom iron steamers.	4 Berryman's water heaters.
6 Dean's vegetable steamers.	1 1400 gal. water tank.
2 steam roasters.	1 steam power coffee mill.
1 steam broiler.	1 hand power coffee mill.
1 3 ft broiler.	1 hand power spice mill.
12 ft broiler	1 hand power chopping machine,
1 12½ ft double fire range.	(meat.)
19 ft " " "	2 pr platform scales.
1 5½ ft single " "	1 pr balance scales.
2 6 ft single " "	6 bread tables.
13 double leaf tables.	1 pastry table.
	7 safes.

STEAM BAKERY.

1 cracker and biscuit machine.	1 brick oven.
1 dough mixer.	2 tables.
1 dough brake.	1 bread safe.
2 safes.	

MASON'S TOOLS.

1 sand screen.	2 brick chisels.
